Excellence in Life via Music

From the Podium

It is my pleasure to inform you that many of our students have mastered most of the fundamental skills in the development of their instrumental talent, and is now ready to advance to the next step in the journey of musical competence. Our competition show and music offers us a perfect road map for continued exploration of artistry. The students who have achieved this level of proficiency are to be commended for their exemplary commitment and dedicated practice. Much has been covered since the first day of band camp, and the joy of musical expression is now the benefit that awaits all those who have attained this important level of expertise. As supporting parent/s, you are also to be congratulated, for your continued encouragement has played a vital role in this exciting personal success of your child.

Reaching excellence in any endeavor requires self-discipline, personal sacrifice, and a support group of caring individuals who will continue to serve as a base of inspiration when the road to success becomes a bit bumpy. You can quickly see what a vital role

you play in this upcoming agenda. Because we are limited in the amount of time we can rehearse the band, it is crucial each student continues a positive practice schedule at home. Your inclusion in this common goal is essential. Knowing the exciting progress which (name of child) has made in the first part of his/her band career, I know we can continue to count on you for your important contribution as a band supporter as well as proud parent's. Thank you.

There is very exciting news about the advantages young musicians have when entering society and taking on the responsibilities of adult life, and it is going to be a thrill to share all of this information with you. There is no question, musical understanding is essential in the quest for success.

Thank you for your time and continued interest as we "band" together.
